STZA REJECTS DEFAMATORY CAMPAIGN AGAINST ITS OFFICERS

Islamabad, April 21: It has come to our attention that a television channel Bol News (owned by Bol Media Group) is running a malicious, abusive, and defamatory campaign against the Special Technology Zones Authority (STZA) and its officers. STZA rejects any and all claims of impropriety made by Bol News regarding STZA on its numerous platforms including but not limited to, broadcast television, and digital and social media. These accusations are entirely false, untrue, and incorrect, and are outrightly denied by STZA.

A willful campaign is being run by Bol News with ulterior and malafide intent to cause damage to STZA and its Officers, and to influence the process of law relating to certain sub-judice matters in Sindh High Court.

STZA reaffirms its commitment to developing the technology sector of Pakistan by enabling inclusive socio-economic development through knowledge and technology-driven growth.

STZA reserves rights to take all necessary legal actions against Bol News.
